

## Installation

Use the universal opening cutter to make accurate conduit entries for the appropriate conduit sizes.

Join the housing components to correspond to the ceiling thickness and installation depth.

Now insert the complete housing, including the installation into the opening or drilling hole. Then .

... fill the free space with concrete and compact it. A formwork board fitted underneath prevents the concrete from running out.

### HaloX-O extension rings

- for increasing luminaire fitting depth
- to be clipped between the front part and the housing
- multiple extensions possible
