

BTICINO &gt; Door entry systems &gt; Internal solution &gt; CLASSE 300 internal units

**344642**

Connected 2 wire / Wi-Fi handsfree video internal unit with inductive loop, 7" Touch Screen LCD display and video door entry answering – light finish. It has capacitive keys for the control of the main video door entry functions: door lock release, handsfree connection, entrance panel activation /camera scrolling and favorite key (can be configured to activate the quick actions most frequently used - eg: staircase lights control, Intercom, additional activations). Tactile guide for easy access to door lock and handsfree capacitive connection keys. LEDs used for: call exclusion, notification of messages from switchboard and note. Access to adjustments and functions using the touch display. NOTE function - for writing using the keypad, or for voice recording of messages and/or notes for the other residents of the apartment (e.g.: call plumber, do the shopping, etc.). Possibility of voice communication with the switchboard - if present in the system - after a specific call. Device must be configured by physically connecting the configurators, or using the menu, which will give better possibilities of customisation of associated functions and texts. Also, thanks to the Wi-Fi connection, you can associate the video internal unit to the Door Entry App (available for Android and iOS). You can manage the main video internal unit functions (receiving calls, opening the door lock, manage the answering machine, activating the entrance panel/cycling and extra activations). Open at integration with connected third-party devices (e.g. NETATMO Smart Indoor and Smart Outdoor Cameras).
