

Motion detector comfort 220/360° white

EE870

Technical Properties	
Detection angle	220/360
Colour	white
Supply voltage	230 V AC
Frequency	50/60 Hz
Type of contacts	contact floating
Breaking capacity	16A 250V AC1
Incandescent bulb power	2300 W
Diameter of the floor detection area	16 m
Time delayed range	5s to 30 min
Brightness measurement range	5 to 1000 Lux
Connection type	quick connect
Operating temperature	-20 to 55
Storage temperature	-20 to 60
Protection class	isol.class II
Protection index IP	55
Fixing mode	surface-mounting
