

Aluminium Profile PS-Line Standard 24

The PROLED aluminium profiles are the perfect addition to the PROLED FLEX STRIPS. The FLEX STRIPS can be glued into the profile. The aluminum profiles are in anodized aluminium, white RAL 9016 or black similar to RAL 9005 available. The profile can simply be sawn to any required length or ordered in the required custom length. Different versions of Aluminium profiles and different shapes of plastic covers are available. In addition we offer a wide range of accessories.

PS-LINE STANDARD 24

The PS-LINE profiles offer a spacious size for the integration of several selected power supply units.

Two different shapes of high quality plastic covers are available: flat and square

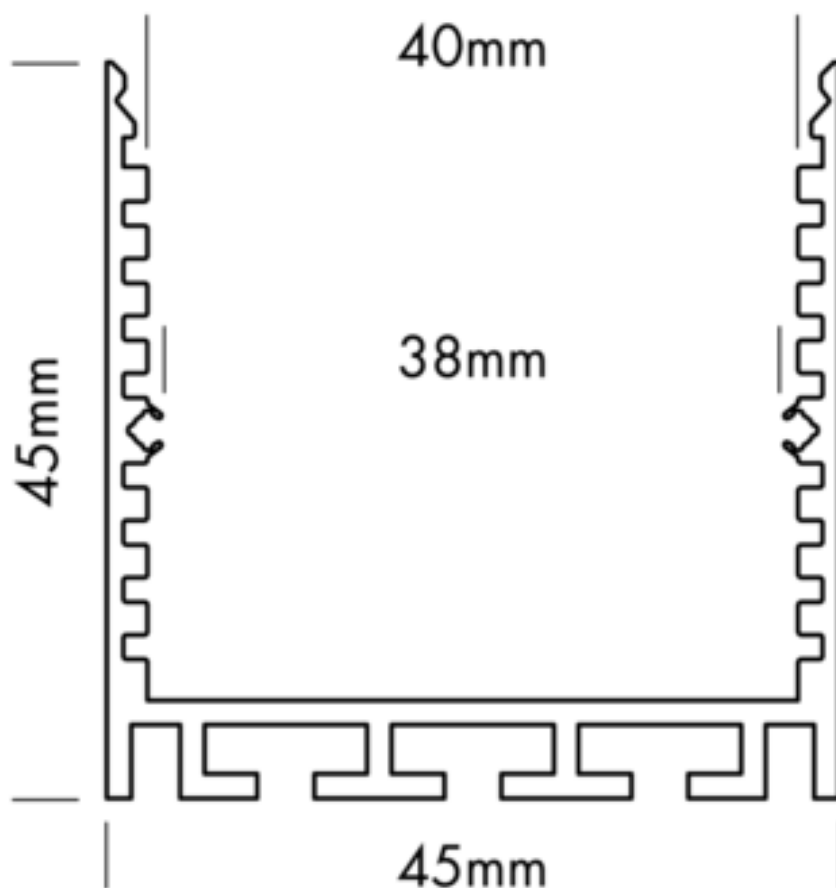

Flat plastic covers are available in following versions: frost (semitransparent), milky frost (opal), with

microprism and black (translucent effect)

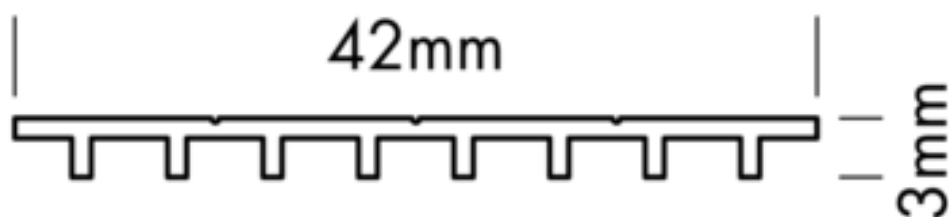

Square plastic covers are available in following versions: frost (semitransparent) and milky frost (opal)

All PROLED aluminium profiles, plastic covers and end caps are protected by registered community designs (international design patents).
